

Doc formerly Ben

Doc (formerly Ben) came to me after an owner surrender. Doc came from a home where he was an only dog. He had foster siblings in his foster home and then came to my home with two other dogs. Doc made himself right at home and got along great with the other dogs. Doc was obviously well cared for. He was loving from the start. He was well mannered and knew a few tricks. Doc loves cuddling on the couch, laying in the yard on a cool day and napping (and snoring very loudly). He maybe 4 but he is as playful as a puppy some days. He has made himself at home here and I am so lucky that he came into my life.
